

PolyVision Commercial Series

Ideas Made Known

POLYVISION[®]
A Steelcase Company

The PolyVision Experience

Since 1954, PolyVision has focused on creating products and services that inspire users to be more productive, effective, and creative when collaborating and communicating visually.

Whether it is developing the world's number one selling *P³ ceramicsteel*[®] surface, or creating the industry's first multimedia whiteboard system, PolyVision has an unparalleled track record of new breakthroughs in the visual communication market.

Simple. Effective. Extraordinary.
The way communication should be.

The Commercial Series of markerboards, tackboards, and projection screens offers the broadest range of finishes that are designed to match the aesthetics of any environment. With finishes ranging from metal to wood, and every combination in between, you never have to choose function over form.

The *P³ceramicsteel*® has a forever warranty and will never ghost, stain, or scratch, keeping your ideas looking great year after year.

An action verb is a word that shows action.

Kevin _____ the bat.

Some players _____ on the bench.

John _____ a fast ball.

The children _____ up and down.

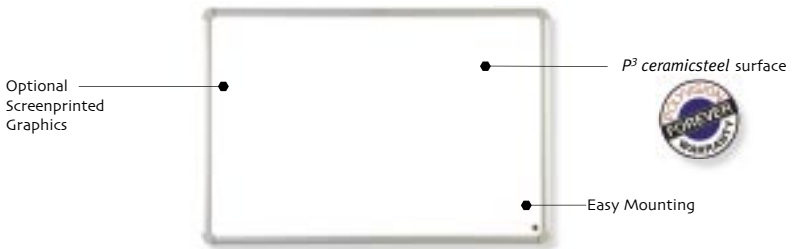

Senti™ Series

Want to make the walls in your work area work harder?
Meet Senti.

Its elegant and functional design and exceptional value make the Senti Series a perfect fit for schools, offices, workstations, and team spaces.

Use Senti to share ideas in your personal or collaborative workspace. Senti's unique four-corner mounting system allows this markerboard to be used anywhere thoughts need to be expressed visually.

Edge™ Series

Looking for a way to maximise collaboration?
Meet Edge.

More writing or tackable surface with less trim makes the Edge Series perfect as a stand-alone board or as a companion board to PolyVision's CopyCam® Image Capturing System.

Its clean lines and array of sizes and mounting options make the Edge Series a perfect fit for all environments. From individual work spaces to large educational settings, Edge works where you do.

Available Options:

Size Range: 600 mm x 450 mm to 4800 mm x 1200 mm
Screenprinted Graphics

Access™ Series

Need to strengthen your ideas?
Meet Access.

Strongly defined trim paired with maximum writing or tackable surface makes the Access Series perfect as a stand-alone board or a companion board to PolyVision's CopyCam Image Capturing System.

With contrasting two-tone aluminium trim and writing surfaces up to 480 cm in width, the Access Series is a perfect fit for corporate, healthcare, and educational settings. The companion tackboard is available in widths up to 300 cm.

Available Options:

Size Range: 900 mm x 600 mm to 4800 mm x 1200 mm
Screenprinted Graphics

Benefits:

P3 ceramicsteel surface
PolyVision Forever Warranty

FreeFlow™ Track Series

What if visual communication didn't have to be two-dimensional?
Meet FreeFlow.

Use FreeFlow as a base markerboard and add another dimension with sliding components; or, use FreeFlow's unique Double Rail Track with integral paper grip for three layers of visual display. The choice is up to you!

With great style and a cleverly layered design, FreeFlow works harder than any markerboard or tackboard alone. Combine markerboards, tackboards, bookshelves, flipcharts, and projection screens to provide the maximum choice in visual display media.

Available Options:

Size Range: 1800 mm x 1200 mm to 4800 mm x 1200 mm

FreeFlow Track System

FreeFlow Flipchart

Mistic Metal

Mistic Wood

Mistic

Mistic™ Series

Did you think markerboards had to be understated?
Meet Mistic.

Mistic Metal's sleek aluminium and/or wood trim makes a bold contemporary statement in a collaborative or private setting. Pair it with PolyVision's CopyCam Image Capturing System to collect and print shared ideas.

Whether you're in a corporate, healthcare, or educational setting, or Mistic is as elegant as it is effective. Use with companion Mistic Metal and Mistic Wood boards.

Available Options:

Size Range: 1800 mm x 1200 mm and 2400 mm x 1200 mm
Finishes: Wood, Metal, or Combination
Screenprinted Graphics

Benefits:

$$X(t) = \left[\frac{1}{\omega_d} \right] \exp\left(-\sum \omega_n t\right) \left\{ \omega_d [x(0)] \cos(\omega_d t) + [x(0) + (\sum \omega_n) x(0)] \sin(\omega_d t) \right\}, \zeta < 1$$

Denska™ Series

Looking for a way to express thoughts?
Meet Denska.

The Denska Series combines a black aluminium frame with premium wood inserts, making it a markerboard that invites collaboration. Pair it with PolyVision's CopyCam Image Capturing System to collect and print shared ideas.

Its bold design and range of size options, up to 480 cm in width, makes Denska a perfect complement to private offices, collaborative settings, and team spaces.

Available Options:
Size Range: 900 mm x 450 mm to 4800 mm x 1200 mm
Screenprinted Graphics

- Chest pain/pressure
- Pain not relieved by medication
- Swelling at incision site
- Difficulty breathing

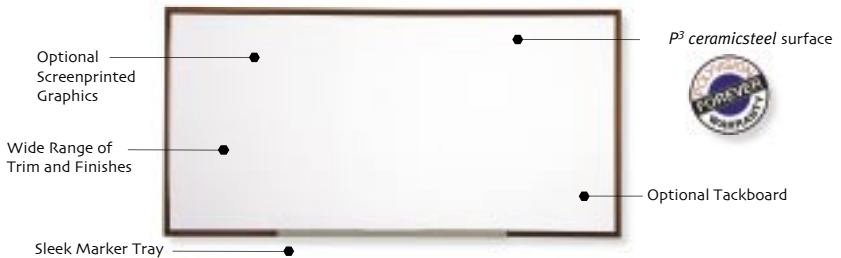

Session™ Series

Thought you had to trade value for beauty?
Meet Session.

No need to hide your marker or tackboard behind closed doors.
Session keeps your thoughts and ideas where you can see them.
Pair it with PolyVision's CopyCam Image Capturing System to collect
and print shared ideas.

The Session Series' beautiful red oak trim works well in any setting.
For an upscale look, Session also offers premium woods that match
any decor. From private offices and team spaces, to non-clinical areas
in healthcare, Session is a perfect fit.

Available Options:

Size Range: 1200 mm x 900 mm to 3000 mm x 1200 mm

Pin-Mag Magnetic Tackboard

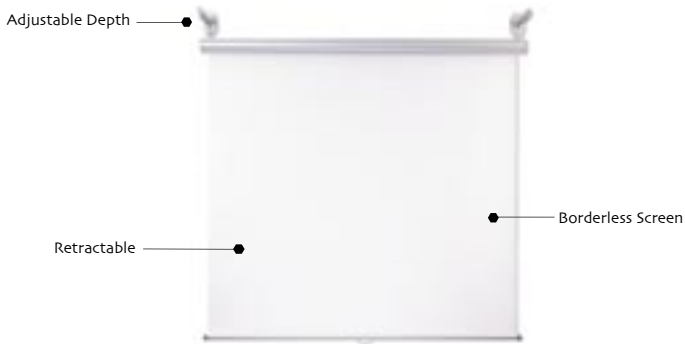

Echo™ Projection Screen

Want to projection screen that is as functional as it is sophisticated?
Meet Echo.

Project your ideas brilliantly with PolyVision's
Echo Projection Screen.

Echo's simple but efficient design, in satin anodised aluminium, fits anywhere you need to project images. Its unique arms allows Echo to stay clear of items that may be wall-mounted beneath; no need to move them, just adjust the depth of the screen, up to a maximum of 40 cm.

Available Options:

Size Range: 1600 mm x 2000 mm to 2400 mm x 2400 mm

Benefits:

Adjustable Depth

Retractable

Borderless Screen

Pin-Mag™ Series

What if you could post information with pins or magnets
on the same surface?
Meet Pin-Mag.

A unique, contemporary design with a perforated metal shell over
a fabric tackable surface, Pin-Mag provides a dramatic contrast
to standard tackboards.

Pin-Mag is unique – it's both a tackable and a magnetic surface.
Available in finishes that coordinate with the Commercial Series
markerboards; use Pin-Mag in your personal work area, team
space, or anywhere you need to share information.

design: Nygaard & Bodholdt
