

# Kørebare tavler

## Mobile Pivoting Boards

Køre-svingtavler anvendes hvor man har behov for fleksibilitet og pladsbesparelse. Den dobbeltsidede tavle kan kombineres i overflader helt efter behov f.eks. whiteboard/whiteboard, kridt/kridt eller whiteboard/kridt i P3 ceramicsteel overflade. Køre-svingtavlen leveres som standard på grålakeret stativ som samlesæt i følgende størrelser:

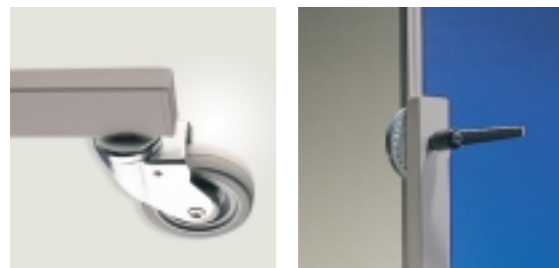

1225 x 1500mm eller 1225 x 2000mm.

*Mobile pivoting boards are used when there is a need for a flexible board option that does not take up a lot of space.*

*Double-sided whiteboard/whiteboard, chalkboard/chalkboard or whiteboard/chalkboard available with P3 ceramicsteel surface.*

*The mobile pivoting board is supplied with a grey lacquered stand featuring lockable castors as a kit in 2 sizes:*

*1225 x 1500mm and 1225 x 2000mm.*

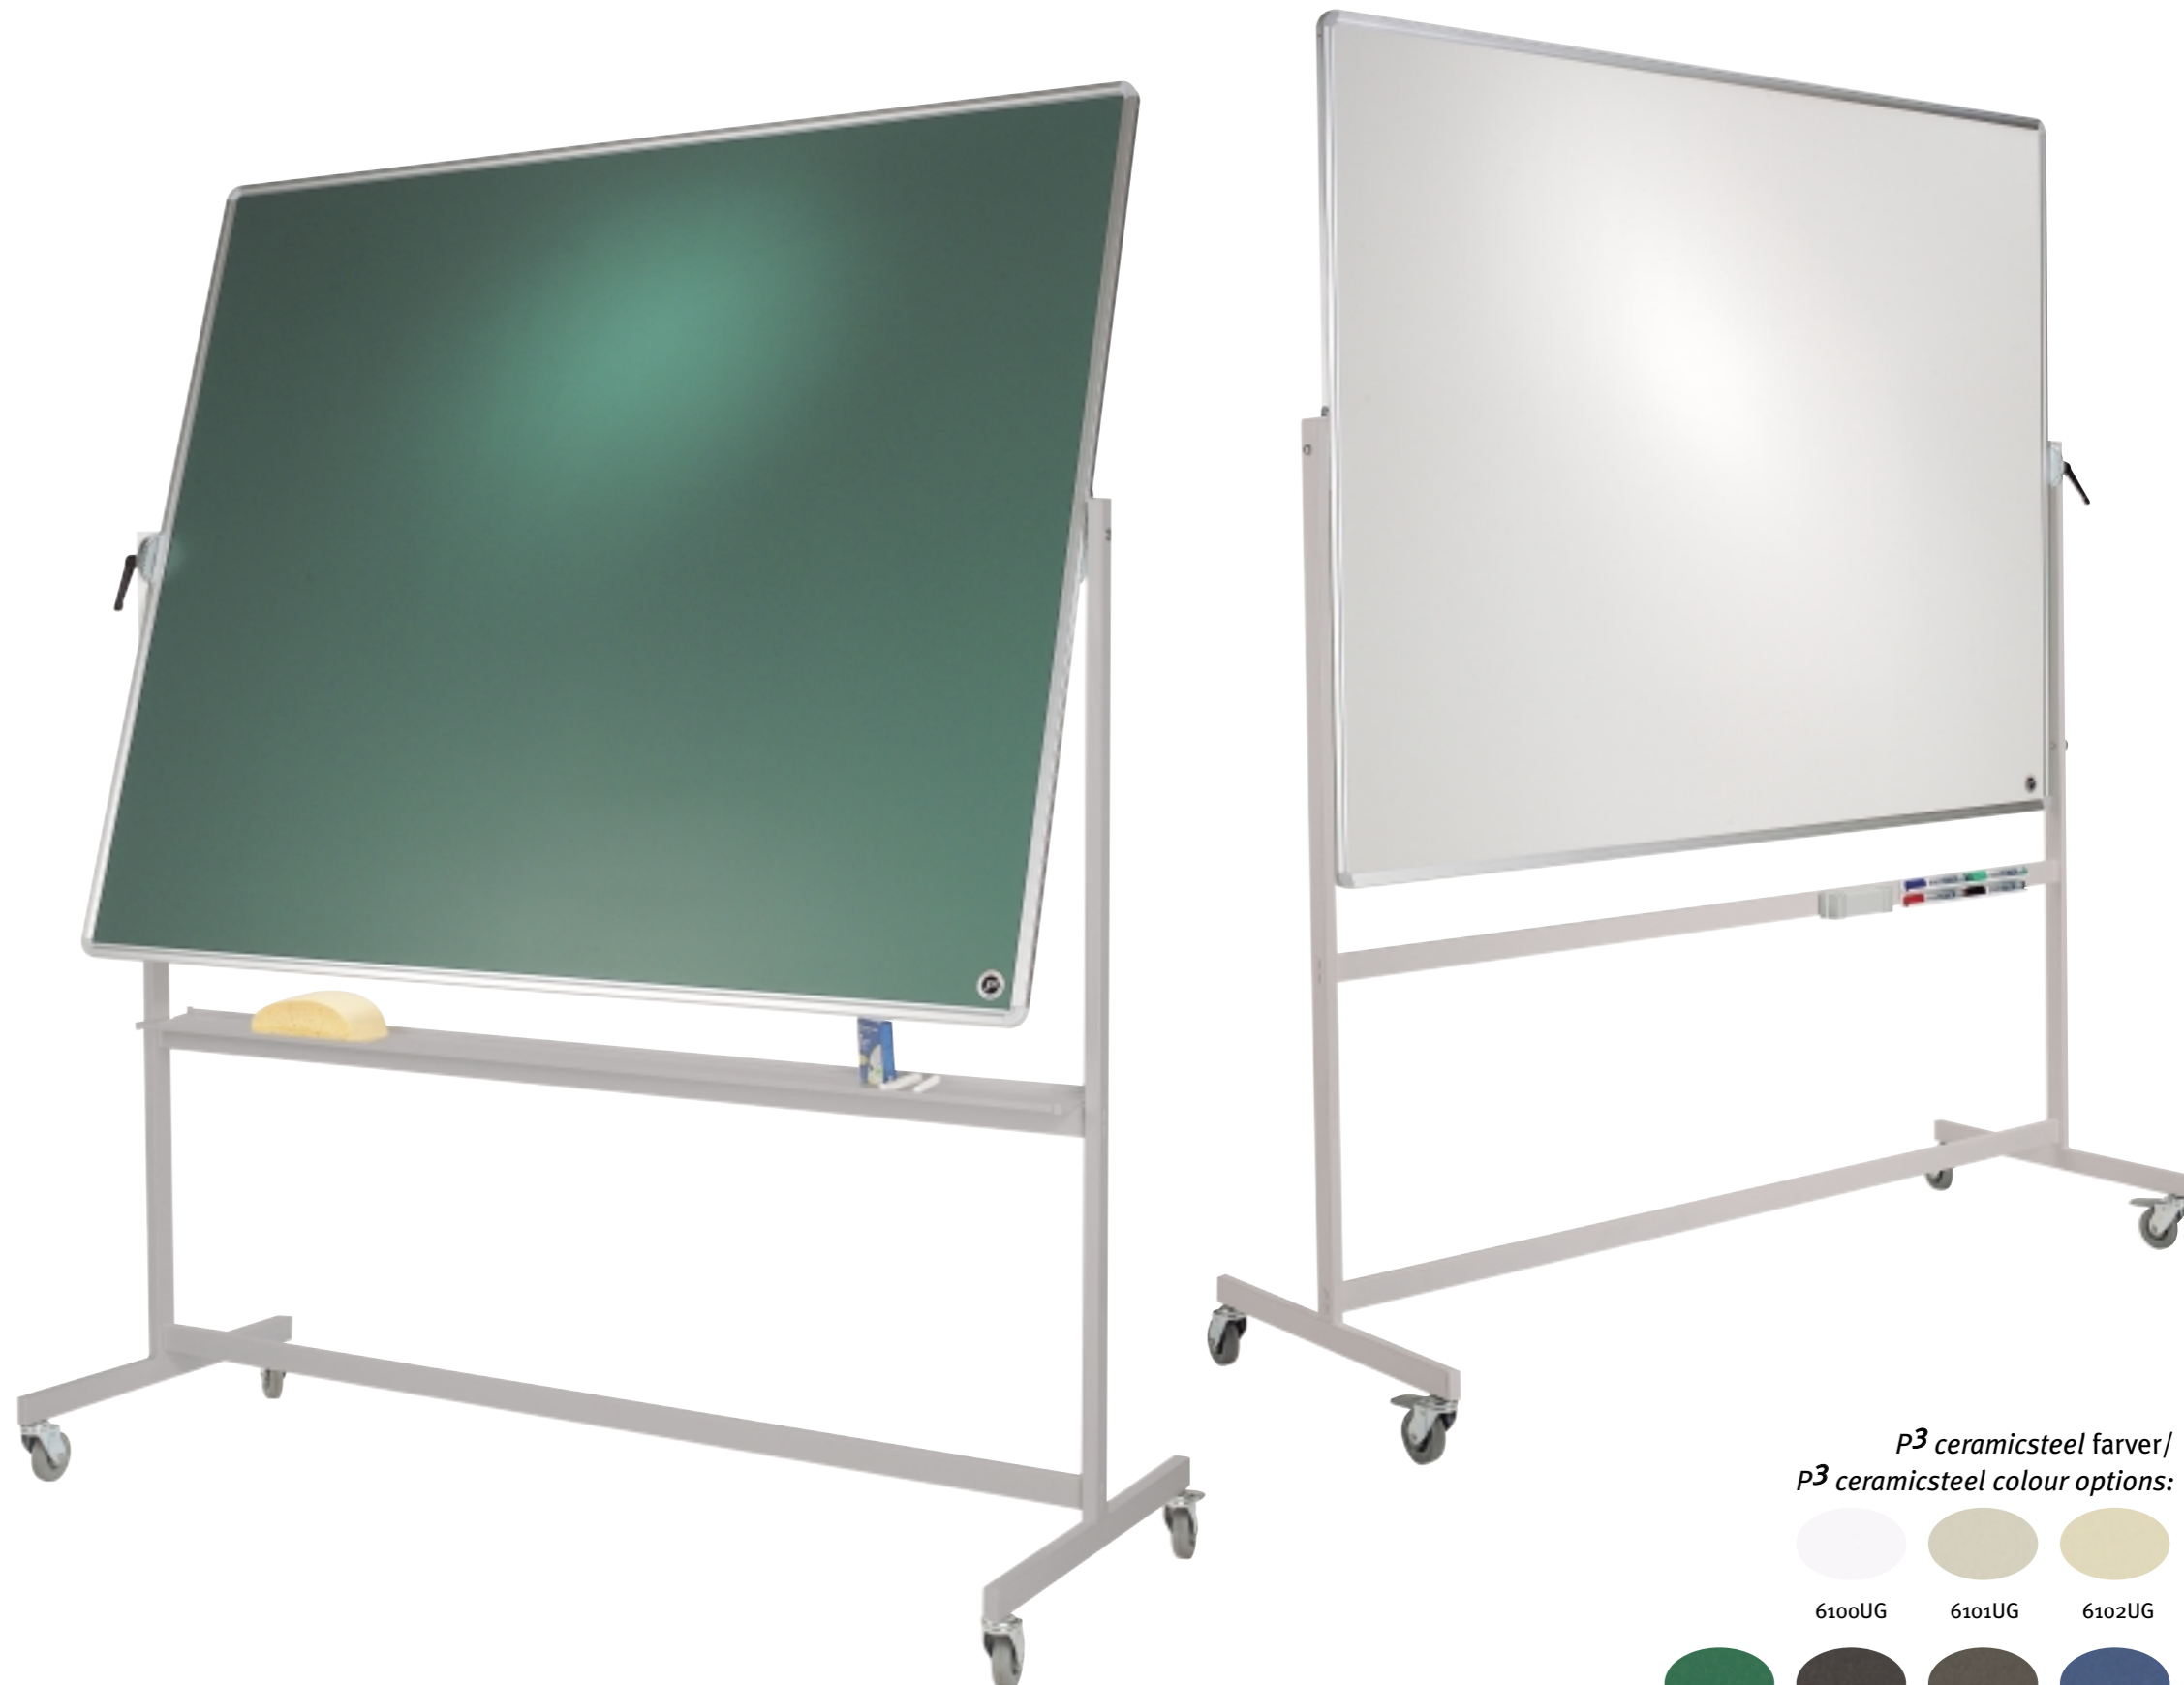

De kørbare tavler er forsynet med 4 hjul, hvoraf de 2 er låsbare.

*Mobile pivoting boards are equipped with 4 castors, 2 of them are lockable.*

Koblingsbeslaget gør at man kan indstille tavlen i den ønskede vinkel, f.eks. for overheadsprojektion.

*The specially designed coupling on the stand makes it possible to tilt the board to any desired angle, e.g. for projection.*
